

Do you have a young child who was recently diagnosed with Autism Spectrum Disorder?

Mind the Gap

NOW RECRUITING RESEARCH PARTICIPANTS

Are you interested in receiving information and educational materials for caregivers about autism and the service system?

You may be eligible to participate in a research study.

Who can participate?

- Parents or Caregivers who have a child:
 - 2 through 6 years of age
 - with a diagnosis of autism spectrum disorder who is not currently receiving autism services and is not on a wait list for behavior based services (ABA)

What else can be expected?

- Caregivers will be provided with education designed to meet their needs while waiting for services.
- You will have access to resources that may increase your understanding of autism and the service delivery system.
 - What is ASD?
 - Navigating the System
 - Strategies to Increase Communication
- You will be asked to fill out some forms.
- A gift will be offered for your time and participation.
- Participation is voluntary.

This research study is funded by HRSA and is conducted by Connie Kasari, Ph.D. at UC Los Angeles and Aubyn Stahmer, Ph.D. at the UC Davis MIND Institute.
